## STUDY SCHEDULE

It is important that you plan a schedule that allows you time to answer, review, and remediate all the questions. Kaplan Nursing designed several schedules for you to choose from based on your scheduled test date.

Select the schedule that allows you to complete all of Kaplan's questions prior to your test date. Stick closely to your schedule, because delaying test dates can negatively affect your outcome on the NCLEX-RN® exam. (See research at <https://www.ncsbn.org/delaystudy2006.pdf>.) If your scheduled test date is not included in the following, adjust your schedule accordingly.

### TESTING TWO WEEKS AFTER THE END OF CLASS?

The following are approximate times for each question set or test. Use the times to plan your study schedule.

#### WEEK 1 AFTER END OF CLASS
